

ITMF Awards Winners for 2024

Industry Updates | Sustainability

Published: August 28, 2024

There are two categories in which the ITMF Awards 2024 are given:

- ITMF International Collaboration Award
- ITMF Sustainability & Innovation Award

The Uzbek Textile & Apparel Industry Association (UZTS) will co-host the upcoming ITMF & IAF Conference 2024, which will take place in Samarkand, Uzbekistan, from September 8–10, 2024, where the winners will showcase their concepts.

With an emphasis on innovation, design, development, and production under the tightest criteria of sustainability and regard for the environment, the ITMF Sustainability & Innovation Award seeks to reward innovative and sustainable achievements in the textile industry.

The following are the 2024 ITMF Innovation & Sustainability Award winners (alphabetically):

- Innovation in PET fiber that is sustainable and low-carbon is offered by GuoWang High-Technique Fiber Company (China) at <http://www.shenghonggroup.cn/en/>.
- Hyperscaling HeiQ AeonIQ Holding AG (Switzerland): [https://www.heiq-aeoniq.com/HeiQ AeonIQTM](https://www.heiq-aeoniq.com/HeiQ_AeoniQTM)
- Samsara Eco (Australia): <https://www.samsaraeco.com/> End-of-life textiles: a solution with infinite plastic recycling

Recognizing achievements in global collaboration in the textile sector in line with the principles of the 17 Sustainable Development Goals (SDGs) of the 2030 Agenda for Sustainable Development is the aim of the ITMF International Cooperation Award.

The following are the 2024 ITMF International Cooperation Award winners (listed alphabetically):

- Next-generation hemp cellulosic filaments from RBX Creations (France): <https://www.iroony.net/> and DITF (Germany): www.ditf.de
- HKRITA (Hong Kong, China): Open lab: <https://theopenlab.one/>
